Answer to Question No. 1:

It is a disease of the nervous system that often strikes in the early twenties. Its cause is a medical mystery, and there is no known cure. A new organization, the National Multiple Sclerosis Society, is however sponsoring a nur-ber of research programs in an effort to unlock the secrets of the disease.

Answer to Question No. 2:

About half the cases recover without and included the cause of causes of polic. Until more is known, the best hope of avoiding it lies in maintaining good general health.

THE BILL NOW BEFORE THE ALABAMA LEGISLATURE

WOULD INCREASE THE GAS TAX

ANOTHER \$15,000,000 A YEAR

. . . and that over and above the \$65,000,000 a year you are already paying in state, federal and local gasoline taxes and state motor license fees.

> It would make Alabama by far "the highest gas tax state in the nation"—and with the local gas taxes we have in eleven counties and 198 towns, Alabama is almost the highest today.

> Combined state and federal taxes on gasoline would then be 10 cents a gallon (nearly 50% of the price). With those local taxes added, the total rate some places would run as high as 13 cents.

Think what that would mean! You would be paying \$1 to \$1.30 in tax on every 10-gallon purchase . . . You would be paying the price of another 5 or 6 gallons of gas you wouldn't get.

And Efforts Are Being Made to Push This Through Without a Vote of the People

Perhaps YOU Can Stop It-If You Act Now!

Write, wire or call your State Senator in Montgomery today . . . or better yet, go to see him personally. Tell him what YOU think about this bill. Tell him to vote against the gas tax increase - but tell him TODAY!
